BOOTDEV

Backend Engineer's Path

Coursework: Git, RabbitMQ, Kubernetes, CI/CD, Docker

Online

January 2025 - Present

TECHNICAL SKILLS

- **Languages:** Python, Java, TypeScript, JavaScript, SQL.
- **Backend:** Node.js, FastAPI, TCP/IP, REST APIs, Django Rest Framework
- **Tools & Infrastructure:** Git, Docker, AWS (EC2, S3), Linux, RabbitMQ

SELECTED PROJECTS

HTTP Server (TypeScript + TCP)

November 2025

- Engineered an asynchronous, non-blocking HTTP server from scratch using TypeScript and raw TCP sockets, bypassing high-level frameworks like Express to optimize overhead.
- Implemented custom request parsing and connection pooling, successfully handling concurrent client requests with low latency.

SALES FORECASTING MODEL

September 2025

- Engineered a predictive REST API using FastAPI to serve real-time inventory forecasts, integrating ARIMA/STL statistical algorithms to achieve a WMAPE score of 3%.
- Built data pipelines to ingest and sanitize retail datasets, transforming raw sales data into actionable JSON endpoints for frontend consumption.

WORK EXPERIENCE

MP SUMANA SHRESTHA SECRETARIAT

Digital Communications Intern

Kathmandu, NP

Jun 2024 – Sep 2024

- Streamlined digital communication workflows to optimize outreach strategies for political campaigns
- Coordinated with policy teams to manage digital presence, ensuring consistent data messaging across platforms.

PARADYGM GROUP

Post Production /Live Broadcasting

Kathmandu, NP

March 2022 – December 2024

- **Researched and built the live broadcasting setup from scratch**, teaching myself the necessary hardware and software integration (OBS, audio routing) to launch the company's streaming capability.
- **Expanded my role from Graphic Designer to Technical Lead**, taking full ownership of live operations and ensuring flawless, on-time broadcasts for over two years,
